Janelle Labuschagne

PROFESSIONAL SUMMERY

BSc Information Technology student with a strong interest in systems, data and technology-driven business solutions. Experienced in requirements analysis, process modelling, system design, databases and data analysis through academic projects and Systems Analysis & Design support. I enjoy understanding how systems and processes work, analysing problems and finding practical solutions. Strong in problem-solving, critical thinking and communication. I am naturally organised, good at categorising information and enjoy planning and keeping things structured.

SKILLS

- Systems Analysis & Design
- Requirements & Functional Analysis
- Business Process Modelling
- Feasibility Analysis
- Data Analysis, Visualisation & Interpretation
- Decision Analysis & Forecasting
- Database Design & SQL
- Microsoft Excel & Excel QM
- C# & Java
- \.NET / .NET MAUI
- ASP.NET Core / Web API
- Analytical & Critical Thinking
- Problem-Solving
- Communication

EXPERIENCE

Peer Academic Leader(Tutor)

North-West University (NWU)

2026 – Present

- Tutor students in Systems Analysis & Design, supporting requirements, system modelling, development and implementation.
- Review student projects and assessments, providing feedback and identifying areas for improvement.
- Facilitate Microsoft Teams sessions and presentations, explaining technical concepts and providing ongoing student support.
- Assist with marking, assessment planning and administration, including Excel tracking, evidence documentation and reporting.

Own projects

ATM System | Java, Spring Boot, Maven - [GitHub](#)

- Developed a Java-based ATM web application with user login, deposits, withdrawals, transfers, transaction history, input validation and error handling.

Tutor Activity Tracker | C#, ASP.NET Core MVC, SQL Server - [GitHub](#)

- Developed a C# ASP.NET Core MVC web application to record and manage tutoring activities, including CRUD functionality, SQL Server database integration, input validation, dashboard statistics and monthly reporting.

Academic Projects

DocuTrack – Legal Document Tracking System

- Designed a QR-based legal document tracking system, analysing requirements, workflows, architecture, security and feasibility.

DataDash – Data-Driven Market Entry Strategy

- Analysed 50,000 trip records across seven South African cities using SQL to identify opportunities and support market-entry decisions.

Team System Development Project | SQL & Visual Studio

- Designed and developed an IT system using requirements analysis, process modelling and database management.

Real Estate Database System | Oracle SQL

- Designed a relational database using data modelling and Oracle SQL.

Panda Note | C# & XAML

- Developed a mobile application using C# and XAML.

Network Design | Cisco Packet Tracer

- Designed and tested a VLAN-based network using IP addressing and network segmentation.

Artificial Intelligence & Python

- Applied Python and machine-learning tools for data analysis, visualisation and AI development.

Leadership and committee Experience

- Organized and managed stalls for campus events, including a cybersecurity-focused stall.
- Assisted at social events , including bar operations, handling (selling refreshments) cash and managing transactions, and ensuring regulatory compliance.
- Represented Bellatrix Day House in various activities and events.
- Created cultural art projects and led campus tours, improving engagement and communication skills.

EDUCATION

BSc Information Technology

North-West University, Potchefstroom

End 2026

Systems Analysis & Design | Databases & SQL | Decision Support Systems | Artificial Intelligence | Cybersecurity
| Data Structures & Algorithms | Operating Systems

National Senior Certificate

Hoër Tegniese Skool, Mpumalanga Witbank

January 2018 - December 2022

AWARDS

- **Best Committee Member, 2025** — Recognised for outstanding leadership and contribution to Bellatrix Day House Committee.
- **Committee Participation Recognition, 2023–2024** — Recognised for active involvement and commitment to student leadership.
